for Galaxy and  
Meteor Models**

**100%  
WATERPROOF**

All our vanities, mirror units and accessible cabinets are manufactured from a high-quality composite PVC boarding that does not swell like other wood or MDF based products if exposed to water or high moisture areas, in fact we have tested our Ceraform® boarding by soaking it in water for over 15 years and it is still looks as good as new.

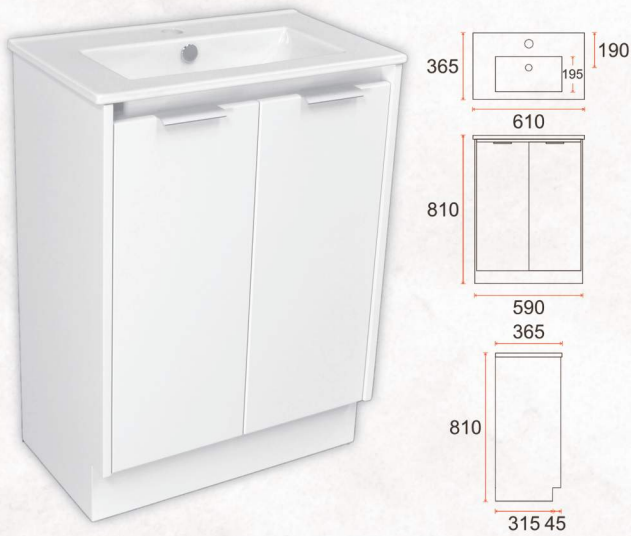

The product is also impervious to mould and insects and can be repaired if damaged and repainted by a furniture painter.

All Ceraform® products are covered by our 5-year warranty and we 100% stand behind the quality of our range. What's more, because we are family owned, you know we will go the extra mile to look after you if any issues, however rare, arise.

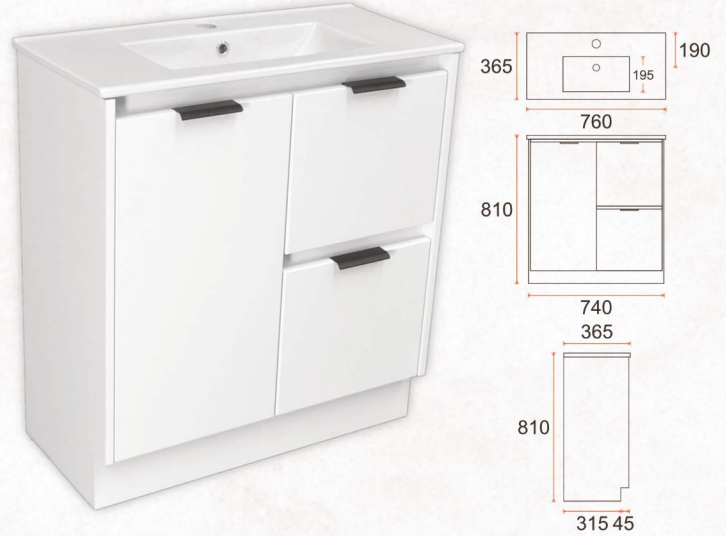

When you purchase one of our products you will have many years of hassle-free use and peace of mind in knowing that you have made a safe, healthy choice for you and your loved ones.
